PROFESSIONAL SUMMARY

Analytical and growth-oriented entry-level Data Scientist pursuing an M.Sc. in Data Science, with a proven track record of building high-accuracy predictive models (98%) on large behavioral datasets. Proficient in Python, SQL, and core machine-learning libraries, with hands-on experience in feature engineering, statistical analysis, and end-to-end proof-of-concept development. Eager to apply machine learning and Generative AI to solve real business problems in a collaborative Agile team.

TECHNICAL SKILLS

Programming: Python (Advanced), SQL (Advanced), Java (Basic), Object-Oriented Programming

Machine Learning & AI: Scikit-Learn, Predictive Modeling, Feature Engineering, Statistical Analysis, Model Evaluation

Data Analysis & Visualization: Pandas, NumPy, Matplotlib, Power BI, Exploratory Data Analysis

Databases: MySQL, SQL, CRUD Operations

Tools & Workflow: Jupyter Notebook, VS Code, Git, Agile Methodologies, POC Development

PROJECTS

Predictive Analysis of Teen Digital Addiction — github.com/sidthaware0518

Tech: Python, Scikit-Learn, Pandas, NumPy, Matplotlib, Feature Engineering

- Engineered predictive features from 10,000+ behavioral records covering device usage, sleep, and academic performance.
- Trained, tuned, and evaluated multiple supervised machine-learning classifiers to detect early digital-addiction patterns.
- Achieved 98% model accuracy, enabling data-driven early intervention for teen digital wellbeing.

Airline Reservation & Management System — github.com/sidthaware0518

Tech: Python, SQL, MySQL, Pandas

- Built a SQL + Python analytics pipeline over airline ticketing and booking transaction data.
- Identified recurring issues and demand trends through exploratory data analysis and automated Python reporting.
- Reduced issue-resolution time by 20%, improving overall service quality.

CineRate — Full-Stack Movie Rating Platform — cinerate-xonm.onrender.com

Tech: React, Node.js, Express, SQLite, REST API, JWT Auth

- Developed and deployed an end-to-end full-stack web app integrating live movie data via the OMDb API.
- Implemented secure JWT authentication, per-user 1–10 ratings, site-wide averages, and watchlists.

EDUCATION

M.Sc. in Data Science

Savitribai Phule Pune University, Pune

Advanced coursework in Data Science, Machine Learning, and Statistics.

Pursuing

Bachelor of Computer Applications (BCA)

Swami Ramanand Teerth Marathwada University, Nanded

CGPA: 8.92 / 10. Foundations in programming, databases, and software development.

2022 – 2025

Higher Secondary Certificate (HSC)

Maharashtra State Board, Pune

Percentage: 83.50%.

2021 – 2022

CERTIFICATIONS

Python Full Stack with Data Science

FirstBit Solutions, Pune — Python, SQL, Machine Learning, and Data Analysis.

2025
